

KOKKARANCHA SAIMAHESH

saimahesh793@gmail.com | 9949449532 | Hyderabad, India

Summary

Dedicated Information Technology graduate with a strong foundation in Python, Java and SQL. Gained practical experience in data analysis through hands-on projects and internships. Skilled in leveraging data-driven insights and software development to create innovative solutions. Passionate about problem-solving and technology-driven advancements, with a keen interest in continuous learning and contributing to impactful projects in a dynamic environment.

Education

MLR Institute Of Technology	Sep 2021 - Present
B. Tech · Information Technology · Hyderabad	8.11
Narayana Junior College	Aug 2019 - Aug 2021
12TH · MPC · Hyderabad	8.7
Bhashyam High School	Jul 2019
10TH · SSC · Hyderabad	9.5

Internship

COSMIC369	Mar 2024 - Apr 2024
Research Affiliation	
Conducted comprehensive data analysis and preprocessing using Pandas DataFrame, including data normalization and efficient handling of missing data. Ensured data accuracy, consistency, and reliability, optimizing datasets for advanced analysis and predictive modeling.	
Thenx	Apr 2023 - May 2023
Product Mapping	
- Implemented an Inventory Management System in ThenX to ensure accurate product mapping by linking items with their respective product IDs. - Developed an automated inventory tracking system with proactive refill notifications based on predefined thresholds.	

KultureHire	Sep 2024 - Nov 2024
Data Analyst Intern	
- Conducted comprehensive analysis of Generation Z career preferences using SQL Joins and Aggregate Functions to generate data-driven insights. - Designed and distributed Google Forms to collect structured data on career aspirations and learning preferences. - Developed interactive dashboards in Excel and Power BI, integrating Pivot Charts and Slicers to enhance data visualization and analytical capabilities.	

Projects

Blind Shoe	
IOT Technology	
- Developed a smart shoe prototype leveraging IoT and Arduino UNO to assist visually impaired individuals in navigating obstacles. - Engineered an obstacle detection system to enhance mobility and confidence for users. - Integrated sensors and microcontrollers to provide real-time feedback for improved accessibility and safety.	

Cafeteria Food Ordering System Using QR Code

- Developed a Cafeteria Food Ordering System prototype using HTML, CSS, and JavaScript, enhancing digital menu accessibility.
- Designed an interactive web interface enabling customers to scan a QR code to access the digital menu and place orders seamlessly.

Certifications

Programming Essentials in Python	Mar 2024
Cisco Networking Academy®	
Received certificate of Python from Cisco Networking Academy.	
Foundation of Cloud IOT Edge ML	Apr 2024
Provided by NPTEL	
Introduction to Cloud Computing	Aug 2024
Provided by Infosys Springboard	
SQL Bootcamp	Oct 2024
Provided by Udemy	

Skills

Python, Java, C Programming, MYSQL, HTML, CSS, JS

Languages

English [Professional Working Proficiency], Telugu [Professional Working Proficiency], Hindi [Elementary Proficiency]
